

The background features a central black rectangle containing text. To the left and right of this rectangle are areas with diagonal grey lines. Several triangles are scattered around: a green one pointing down at the top left, a black one pointing left at the top right, a green one pointing right in the middle right, and a black one pointing up at the bottom right. A green triangle pointing right is also partially visible on the left edge.

CASE STUDIES FOR HOW CHATBOTS CAN SUPPORT YOUR BUSINESS

If you have a website or any online presence,
then you should have a chatbot

GREAT OPPORTUNITIES AWAIT

BE READY FOR THE FUTURE TODAY!

“People are now spending more time in messaging apps than in social media and that is a huge turning point. Messaging apps are the platforms of the future and bots will be how their users access all sorts of services.” — Peter Rojas, Entrepreneur...

HOW CHATBOTS CAN SUPPORT MY BUSINESS?

Do you have this question
in your mind?

Then read along the
following case studies

UNIVERSITY CHATBOT

For leading Australian University

"University chatbot", helped a leading Australian university answer the queries of their students outside normal business hours.

Students can now ask questions anytime and get immediate response.

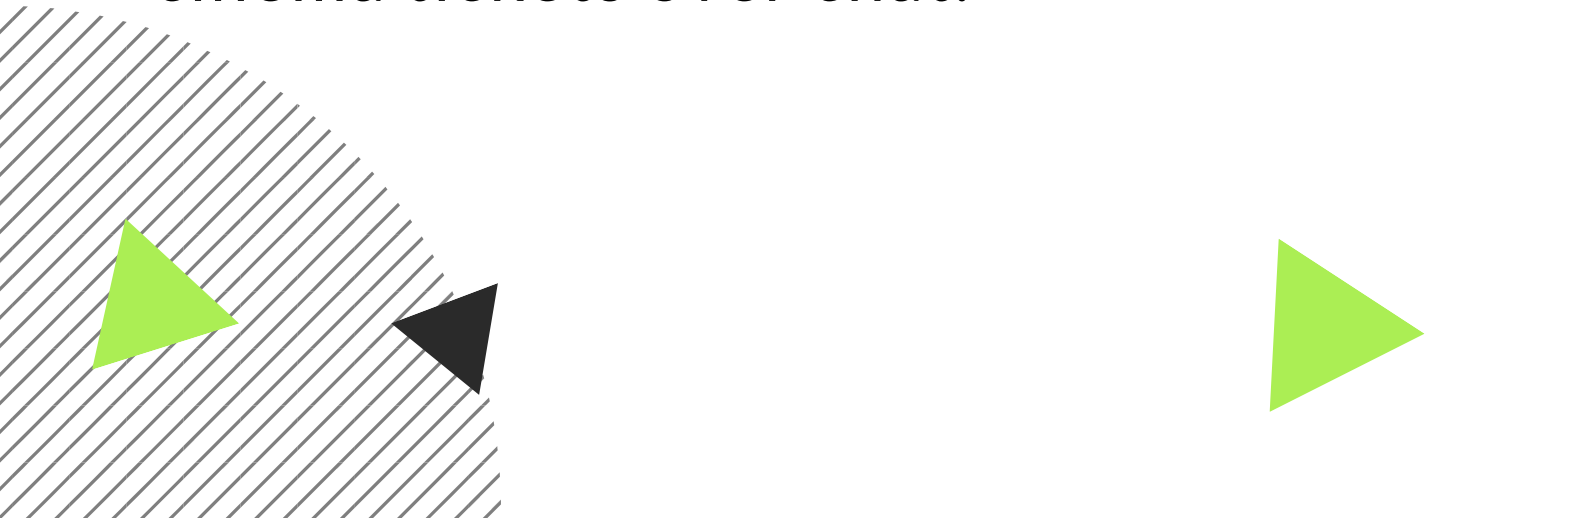

MOVIES CHATBOT

For Cinema City, a leading Movie Theatre

Cinema City has millions of visitors on their website every month. Most of the visitors had some questions and they were not interested in reading FAQs or waiting for a representative.

"Movies Chatbot", helped visitors answer their question instantly. It can even recommend movies and buy cinema tickets over chat.

TRAVEL CHATBOT

For Flying Carpet, a leading Travel Agency

Flying carpet offers wide variety of travel related services. People often get confused with their website structure and keep asking questions to live chat agents.

However, handling so many requests was difficult. Chatbots can now answer 100% of their visitors queries instantly.

ECOMMERCE CHATBOT

For Traklin Electric, a leading Online Store

Traklin Electric observed that a lot of their customers were abandoning cart and were not making final step of purchase.

They added a Virtual Sales agent chatbot which can answer all the queries. After which their sales numbers became much better.

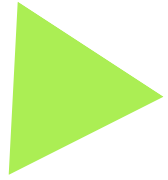

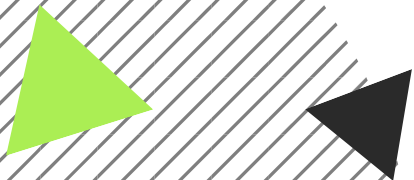

CLINIC CHATBOT

For Top Clinic, a leading Healthcare Agency

Top Clinic observed that their patients are not willing to read too much information about medical conditions, treatments etc on their websites. They were interested in asking questions.

Implementing chatbot helped them gain trust of their patients and were able to get direct feedback from them.

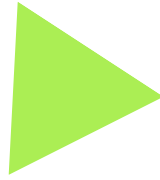

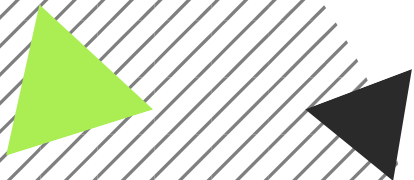

SUPPORT CHATBOT

For Rihvit, a leading Accounting Software

Rihvit is an accounting software for Business owners. A lot of their customers don't understand accounting and keep asking difficult questions.

They realised that Chatbots can help them. After adding chatbot, they had 40% drop in the number of incoming support calls and emails.
